

# Octagon Twin LNB for QO-100 reception

for: SSB , Pactor and ATV

Nr. 1

with two separatly PLL Local Oscilator inside

**Input Freq. Range:** 10400.....13000 MHz H and V polarisation , for Offset dish

**Output Freq. Range:** 410.....2200 MHz

**Output Port 1.** for DATV use ( gets tension from receiver – recommended Octagon SF8008 )

IF frequency range , Rec range: 1102,3.....1110,8 MHz Vcc 16.....19V

Local Oscilator freq. 9388,7 MHz & 20°C TK 8ppm ( Quarz PLL )

**Output Port 2.** for SSB use ( gets tension from BiasT - Vcc 11....13V )

IF frequency range , Receiver range: 70cm Band 431,800.....432,600 MHz

Local Oscilator freq. 10057,5.. MHz & 20°C TK 2ppm ( Quarz PLL )

Bracket diameter: 40mm

Very limited quantity still available !

Price: 95,00 Euro
